

Risk Management Training Scholarship Funds

STATEMENT: Although the WCRP (Pool) provides a number of training topics and opportunities to its members, it simply can't provide all the important, specialized and relevant training pertinent to risk management for its members' officials or employees. Oftentimes, there are training options available outside of the County or Pool that members' officials and employees would attend, given adequate resources. In the effort to access quality training, WCRP's Board of Directors has authorized a SCHOLARSHIP FUND for Py2010.

PURPOSE: Scholarship funds are to assist member counties in accessing opportunities for training in risk management. The training is to be liability-related, benefit the individual county, and if possible, brought back and shared with the entire Risk Pool membership.

FUND: Scholarship funds are used to pay for training. Training might include class books, on-line training, registration for training classes, etc... Travel, meals and accommodations are generally the county's responsibility. Scholarship funds are distributed based on an application with the member county's risk manager's recommendation and an analysis conducted by Risk Pool staff. Scholarship funds are not granted for WCRP-sponsored training.

CRITERIA: The following information must be submitted for consideration:

- 1) Identify the training or materials applied for. If available, please provide a copy of related materials such as a training brochure or description of the class or book.
- 2) Identify what risk management element is being addressed through the proposed training and how it interfaces with your county risk management program.
- 3) Identify who will attend or receive training and the risk management role/position they have in your county.
- 4) Provide a statement that the participant and county requesting the scholarship are willing to allow the person to instruct/report at future Risk Pool training, if applicable.
