The WCRP Presents:

Managing Challenging Conversations

This six-hour program will be delivered virtually over two-days.

July 14 & 15, 2021 | 9:30am-12:30pm both days

September 22 & 23, 2021 | 9:30am-12:30pm both days

Instructed by Janelle Tarasewicz, Principal Consultant, Aperture EQ

We've all been there before - a conversation needs to occur with our employee, but we keep pushing it off because we're dreading the discussion. These conversations are difficult because they are awkward; but with the right approach they become manageable. As supervisors, it is an essential function of our jobs to turn these difficult conversations into constructive dialogues so that our employees can stay engaged and productive members of our team. With training and practice, supervisors and employees can hone their communication techniques and use these crucial skills to navigate the challenging process of having a difficult conversation. Having a conversation to address performance is difficult, but with the right tools the process becomes manageable, effective, and successful.

Learning Objectives:

- Discovering techniques to help you stay calm during a difficult conversation and help defuse an emotionally charged situation.
- The science behind how our brain and bodies react to stress, including how our communication processes are impacted.
- Understanding how defensiveness surfaces and learning techniques to decrease your own defenses, as well as mitigate defensiveness in others.
- Communication techniques to help you modify your communication style based on the audience and the situation.
- The steps to take to prepare for the difficult conversation, including what you should document after the fact.
- Coaching and feedback outlines that help guide supervisors through the process of a difficult conversation, including helpful tips and scripts.
- Basic skills for conflict resolution and how to navigate a conversation to help build trust during these contentious moments.
